

Sixth Annual Port Orford Water Festival

Riding a wave of community support and enthusiasm, we are proud to announce the date of the Sixth Annual Water Festival!

Save the date: April 12 & 13, 2013

Connecting the Drops: Land to Sea Sustainability

What connects the highest peaks to the deepest oceans? Water. It is what nourishes our lush Oregon landscape, keeps our oceans alive, and sustains our way of life. Humans have an enormous responsibility to ensure the health of our water resource. The Port Orford Ocean Resource Team and the Surfrider Foundation invite you to share our vision of protecting our water as we 'connect the drops' from source to sea at the Port Orford Water Festival.

Thank you all for your involvement with the previous Water Festivals! Let's see what we can accomplish this year.

The Port Orford Ocean Resource Team works to ensure the long-term sustainability of Port Orford's ocean resources and our community that depends on them by uniting science, education, local expertise and conservation.
